

MAST

| No | NAME | SPECIFICATION | DESCRIPTION | PRICE | IMAGE | VIDEO |
|----|---------------------------------------|--|---|---------|---|---|
| 1 | 6m Manual Telescopic Mast | Material- Mild steel, Height- 6m, Pay load- upto 30kg, Retracted height- 1.6m, Wind speed- 150km/h, Lifting Mechanism – Manual Winch | 6m mild steel manual telescopic mast, 1.6m retracted height, supports 30kg payload, withstands 150km/h wind. | @65000 |  | https://youtu.be/T9q85tb30NE?si=-TW8JRwkwzrRrAw |
| 2 | 10m Manual Telescopic Mast | Material- Mild steel, Height- 10m, Pay load- upto 40kg, Retracted height- 2.8m, Wind speed- 150km/h, Lifting Mechanism – Manual Winch | 10m mild steel manual telescopic mast, 2.8m retracted height, supports 40kg payload, windspeed- 150km/h | @85000 |  | https://youtu.be/T9q85tb30NE?si=TU-59ovfAmx3Otbl |
| 3 | 6m Actuator Telescopic Mast | Material- Mild steel, Height- 6m, Payload- upto 30kg, Retracted height- 1.78mtr, Wind speed- 150km/h, Lifting Mechanism- Electric | 6m mild steel actuator telescopic mast with automatic lifting, 1.78m retracted height, 30kg payload, withstands 150km/h wind. | @180000 |  | https://youtu.be/XBvja9A9irM?si=sbBWjxOzAwLaNzqA |
| 4 | 10m Actuator Telescopic Mast | Material- Mild steel, Height- 10m, Payload- 10-50kg, Retracted height- 2.9m, Wind speed- 150km/h, Lifting Mechanism- Electric | 10m mild steel actuator telescopic mast with automatic lifting, 2.9m retracted height, supports 10–50kg payload, withstands 150km/h wind. | @250000 |  | https://youtube.com/shorts/E5q7PizuExs?si=CiNNZvUf5Ze7Esxt |
| 5 | 36 ft Tubular mast | Mast Section- 6, Total Height: Up to 36 ft, Mast Material: 2-inch diameter Aluminium, Type: Complete, portable, ground-mounted mast system | A portable 36-foot mast system made of six lightweight, 2-inch aluminum sections. It's a complete, ground-mounted solution designed for quick and easy setup. | @15000 |  | https://youtu.be/Quu6K3kuCo?si=6JD0M117JCPT7Jo3 |
| 6 | 6m lightweight telescopic mast | Material- Aluminium, Lifting- Manual, Tube- manual, section- 4 | A 4-section manual telescopic mast made of lightweight aluminum. It's simple to operate by hands | @35000 |  | https://youtu.be.com/shorts/Kl7wtJzXwhQ?si=IFf1WkoNlpBxkiBc |

|----|--|---|--|---------|---|---|
| 7 | 10m lightweight telescopic mast | Material- Aluminium, Lifting- Manual, Tube- cylindrical tube, section-6, Retracted height- 1.8mtr, wind speed- 40km/h | A manually operated, 6-section telescopic mast made of lightweight aluminum. It retracts to a highly portable 1.8 meters. | @45000 |  | https://youtu.be/RoxyHflOf6w?si=OsdpillxvBCnY7N5 |
| 8 | 15M lightweight telescopic mast | Height- 15m, Material- Aluminium, lifting- manual, Tube- cylindrical tube, section-6, wind speed- 40km/h | 15m Telescopic Mast – Aluminium construction with 6 cylindrical sections, manual lifting , lightweight | @60000 |  | https://youtu.be/RoxyHflOf6w?si=OsdpillxvBCnY7N5 |
| 9 | 10m pneumatic mast | Material- Aluminium, Pay load- 25kg, No. of sections- 5, Working method- manual extension, Mast type- Multi section telescopic mast, wind speed-40km/h | Multi Section Telescopic Mast – Made of aluminium, featuring 5 sections with manual extension. It supports a payload of up to 25 kg, offering lightweight, | @150000 |  | https://youtu.be/kvUnreN-FzU?si=C-0BdLzYoHL9bFhU |
| 10 | 3.5m light mast | Material- Aluminium, MS, Number of mast sections: 4, Lifting mode: pneumatic lifting, Lift height: 3.5 meters, Rotation Angle: 380° horizontal rotation, 330° vertical rotation | This mast is made of durable aluminium and mild steel with 4 sections, offering a 3.5 m pneumatic lift height and 380° horizontal, 330° vertical rotation for smooth and flexible operation. | @150000 |  | https://youtu.be/ulx93oCbhf0?si=m_BRvRwF-IPCCJh1 |
