ALMUNIUM TRIPOD 160CM

Engineered for professional communication applications, this tripod offers a versatile and reliable solution for signal transmission and reception. It features a lightweight yet durable construction for easy installation and portability, along with a secure mounting arrangement for stable positioning. Its precision-designed antenna structure ensures reliable signal performance, consistent connectivity, and efficient RF communication. Suitable for integration with RF antenna, wireless communication systems, defence equipment, and other professional applications.

Core Features:

Dual-Clamp Security: Combines the speed of a **Quick Clamp lever** with the positive, twist-lock action of a **wing screw** for a redundant, slip-free hold.

Job Site Durability: All hardware is protected with a wear-resistant, **electrostatic powder-coated finish** to withstand tough conditions.

All-Terrain Footing: Comes equipped with large aluminum shoe castings and hardened, **replaceable points** for a solid grip on any surface.

Specifications:

Specification	Detail
Material	Aluminum
Head Type	Flat, 5/8"-11 Thread
Lock System	Dual Clamp (Wing Screw & Quick Clamp)
Extended Height	160 cm / 63"
Collapsed Height	96.3 cm / 38"
Weight	3.7 kg
Color	Black/Orange
