Heavy Duty Aluminum Tripod

This is a heavy-duty tripod offering the ultimate combination of stability and locking security. It is built from heavy-gauge aluminium with a wide-frame design to support heavy instruments. The versatile dual-clamp system provides both the speed of quick-release levers and the torque of wing screws for a redundant, non-slip lock.

CORE FEATURES

Ultimate Locking Power: The dual-clamp system combines a Quick Clamp lever for speed and a wing screw for a positive, high-torque lock, ensuring leg extensions never slip.

Superior Stability: A large aluminum flat head, heavy-duty hinges, and wide-set legs create a rock-solid platform for precise instrument setups.

Built for the Field: Features a durable, powder-coated finish on all castings and hardened, replaceable shoe points for long-term use in demanding environments.

SPECIFICATIONS

Specification	Detail
Material	Heavy-Guage Amuminium
Head Type	Flat, 5/8"-11 Thread
Lock System	Dual Clamp (Wing Screw & Quick Clamp)
Extended Height	163 cm / 64"
Collapsed Height	102 cm / 40.1"
Weight	4.7 kg
Color	Black/silver
