

CT175 Camera Tripod

Model: CT175

The CT152 Aluminium Tripod is a premium, heavy-duty stand engineered for maximum stability on construction and surveying sites. Built from high-grade anodized aluminum, it provides a rock-solid, vibration-resistant base for automatic levels, dumpy levels, and laser tools.

Key Specifications & Features

- **Material:** Lightweight and durable anodized aluminium construction with quick-action clamps or locks.
- **Maximum Height:** Typically extends up to approximately 152 cm to 154 cm (or around 60 inches depending on the specific brand variant like CSTech or Huepar).
- **Compatibility:** Features a flat or triangular head configuration suitable for 5/8" or 1/4" threaded instruments, auto levels, and laser levels.
- **Portability:** Foldable design with quick-release or flip/quick-clamp locks for rapid field setup and transport.
