## TECHNICAL DATA OMNI ANTENNA

Item No	Commodity & Description	Picture
1	<p>Model number: SDBF0.6                      Frequency range: 420-520MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi Connector: N-male                      Color: black</p>	
2	<p>Model number: SDBF0.6                      Frequency range: 910-830MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi Connector: N-male                      Color: black</p>	
3	<p>Model number: SDBF0.6                      Frequency range: 1100-1300MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi                      Connector: N-male                      Color: black</p>	
4	<p>Model number: SDBF0.6                      Frequency range: 1500-1600MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi                      Connector: N-male                      Color: black</p>	
5	<p>Model number: SDBF0.6                      Frequency range: 2400-2500MHz / 2340-2400Mhz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi Connector: N-male                      Color: black</p>	
6	<p>Model number: SDBF0.6 Fre-                      quency range: 5100-5300MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi                      Connector: N-male                      Color: black</p>	
7	<p>Model number: SDBF0.6 Fre-                      quency range: 5620-5875MHz                      Length: 46cm(1.5ft)                      RF power handling capacity: 150W                      Gian: 0 to 3 dbi                      Connector: N-male                      Color: black</p>
