

NEW PRODUCTS

QUICK-LOCK(QLF)COMPLIANT

QMA and QN CONNECTORS AND CABLE ASSEMBLIES

We introduce our new line of QMA and QN connectors and cable assemblies. Compliant to QLF® specifications, the connectors provide fast, easy and secure mating with minimal space requirements. (Quick Lock Formula® and the QLF® logo are registered trademarks of Huber+Suhrner AG and Radiall SA.)

QMA Connectors are snap-on versions of SMA Connectors. Designed for DC to 18 GHz, these connectors can mount in a few seconds. No torque wrench is needed, making them excellent for field applications. Connectors can be spaced closer together for this same reason. The cabled connector plug can rotate freely 360° around the jack, easing installation again while reducing stress on the cable and any return loss due to bending.

QN Connectors are snap-on versions of N Connectors. Designed for DC to 11 GHz, these connectors can mount in a few seconds. No torque wrench is needed, making them excellent for field applications. Connectors can be spaced closer together for this same reason. The cabled connector plug can rotate freely 360° around the jack, easing installation again while reducing stress on the cable and any return loss due to bending.
