MOBILE & STATIONARY ANTENNAS  
FOR LAND MOBILE RADIO APPLICATIONS

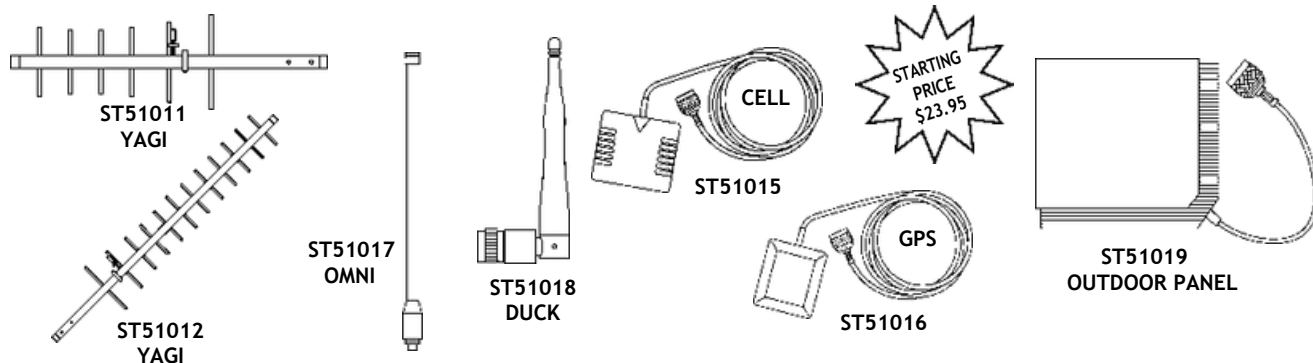

We introduce our newest product line to make it even easier to find all the RF coaxial products you need in one location. Our wideband antenna solutions operate across multiple frequencies, which helps alleviate the interoperability problems that can occur during crisis and emergency situations.

Our Mobile Antennas are compatible with 1-1/8"-18 thread mounts, including the industry standard 3/4 inch hole mounts, so installation or replacement of existing antennas on public safety and emergency response vehicles is both easy and cost-effective.

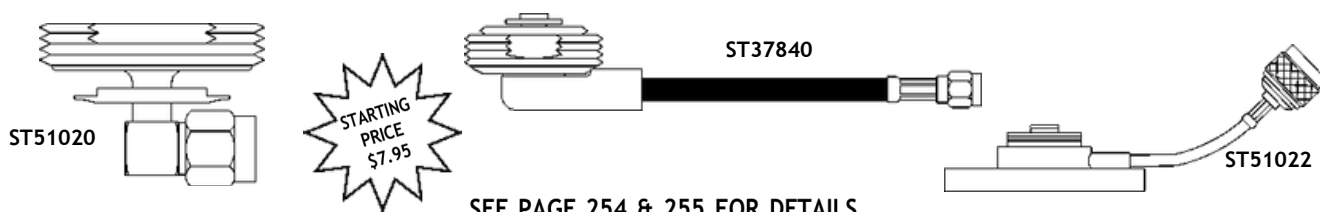

SEE PAGE 252 FOR DETAILS

Our Antennas for LMR and Base Station applications also come ready-to-install for both indoor and outdoor environments, and even for extreme weather situations. Of these antennas, three come equipped with coaxial cable that can be terminated with your choice of connector for a customized solution that can be shipped the same day you place your order!

SEE PAGE 253 FOR DETAILS

To complete your installation, we also offer our complete line of Antenna mounts, NMO cable assemblies and jumpers. These can be easily customized to your specifications, no matter which connector termination or length you need. We have it all in-stock and ready to ship the same day.
